MODERN ERA AND YOU

Some very important word of this era, driven the world are globalization, digitalization , networking, e-commerce

Globalization

People all over the world become closer than ever before. Goods and services that appear in a country will be immediately promoted in the others. International transfer and communication are more common. For describing this present time, they use the term: THE ERA OF GLOBALIZATION.

In the present age of globalization, the **economy of countries are inter-dependent**. If the economy of one country fall in danger, other countries also feel the pain.

As a result of globalization, we see **cultural exchange among communities**. People get the opportunity to exchange ideas and adopt better means of living.

Many philanthropic and social organization are promoting the concept of **universal brotherhood**. They work for the betterment of entire humanity

Digitalization & Networking

“Globalization” has become a word so common in our every day vernacular that we hardly take into account what it means or what caused it. To a large degree, the Internet and tech advances have accelerated our markets and our lives being internationally bound together. That is to say, we are all connected. Networked, for better or for worse.

The **Digital India** vision provides the intensified impetus for further momentum and progress for this initiative and this would promote inclusive growth that covers electronic services, products, devices, manufacturing and job opportunities. India in the 21st Century must strive to meet the aspirations of its citizens where government and its services reach the doorsteps of citizens and contribute towards a long-lasting positive impact. The Digital India Program aims to transform India into a digitally empowered society and knowledge economy by leveraging IT as a growth engine of new India.

“It is the process of developing and using your contacts for information, advice and moral support as you pursue your career. It’s linking the people you know to the people they know in an ever-expanding communications **network**...It’s helping each other to become more effective in the work world...”

E-Commerce

E-COMMERCE BUSINESS OPPORTUNITIES IN INDIA

Online business is a form where one can sell or buy product over internet. And country likes India which is second after china in terms of internet users, about 30 percent of its population uses internet and it is estimated to rise rapidly. This gigantic growth of had increased the ecommerce business opportunities in India. The reasons behind the growth in online shopping.

- Increasing internet users per year, this is due to increase in higher penetration of mobile penetration in India .
- Higher rate of usage of Smartphone's and higher purchase of smart phones.
- One more important aspect which helps this growth is that ease of doing shopping.
